

## THE NEW MINI COUNTRYMAN PLUG-IN HYBRID.

Now, you can add electric too. The new MINI Countryman plug-in hybrid, available in June, lowers CO<sub>2</sub> emissions to 49 g/km\*, meaning company car drivers can enjoy a BIK of just 9%.

With a high level of standard specification across the range, these versatile and efficient models tick all the boxes for company car drivers. Particularly important for business users, many of these models offer MINI Navigation and Park Distance Control as standard, making time on the road easy and stress-free. All in all, there has never been a more exciting time to choose MINI for your fleet.

## MINI Fleet & Business Sales

Official Fuel Economy Figures for the MINI range: Urban 30.1-72.4 mpg (9.4-3.9 l/100km). Extra Urban 45.6-91.1 mpg (6.2-3.1 l/100km). Combined 38.2-134.5 mpg (7.4-2.1 l/100km). CO<sub>2</sub> Emissions 49-169 g/km. \*Figures are obtained in a standardised test cycle using a combination of battery power and petrol fuel after the battery had been fully charged. They are intended for comparisons between vehicles and may not be representative of what a user achieves under usual driving conditions. The new MINI Countryman plug-in hybrid is an electric vehicle that requires mains electricity for charging.
